H.B. NO. 902

JUSTIFICATION SHEET

DEPARTMENT: Budget and Finance

TITLE: A BILL FOR AN ACT RELATING TO PUBLIC NOTICES.

PURPOSE: The purpose of this bill is to develop a more efficient and cost-effective means of providing information to the public regarding: (1) changes to the University of Hawaii's allotment ceiling, (2) the State's expenditure ceiling, and (3) the status of grants.

MEANS: Amend sections 37-37(b), 37-94, and 42F-107, Hawaii Revised Statutes (HRS).

JUSTIFICATION: Currently, section 37-37 provides that the Governor must make a public declaration when redetermining the allotment ceiling for the University of Hawaii. The public declaration is published in the Honolulu Star-Advertiser and newspapers on each island.

Section 37-94 requires the Director of Finance to give, twice in successive weeks, statewide public notice of the state growth and expenditure ceiling. The public notice is also published in the Honolulu Star-Advertiser and newspapers on each island.

Additionally, section 42F-107 requires the Governor to report the status of unreleased grants once every quarterly allotment period in the manner prescribed by section 1-28.5, HRS. Section 1-28.5 requires the public notice to be published statewide in a daily or weekly publication of statewide circulation or by publication in separate daily or weekly publications whose combined circulation is statewide. In practice, the Governor has delegated the reporting of the status of grants to the Director of Finance.

H.B. NO. 902

The cost of publishing these public notices in the newspaper totals about \$9,300 each fiscal year. It would be more cost effective if the Governor or Director of Finance could report the information on the Governor's or Department of Budget and Finance's website, as applicable. This would reduce the cost of publishing the public notices. In addition, having the information available on the Governor's or department's website may make the information readily available and accessible to a wider audience.

This bill would also amend sections 37-37 and 42F-107, HRS, to allow the Governor or Director of Finance to make the public declaration regarding the University of Hawaii's allotment ceiling and report the grant information, respectively.

Impact on the public: This bill will reduce the expenditure of taxpayer dollars, while still providing for thorough, adequate reporting of required information.

Impact on the department and other agencies: This bill will reduce the department's unnecessary expenditure of taxpayer dollars.
