December 20, 2018

Dear President Kouchi and Speaker Saiki:

Pursuant to Section 601-21, Hawai‘i Revised Statutes, the Judiciary is transmitting a copy of the Report on Statewide Substance Abuse Treatment Monitoring Program, including data collected in accordance with section 321-192.5 Hawai‘i Revised Statutes, from any circuit court, adult probation, and any provider of substance abuse treatment that provides substance abuse treatment to persons served through public funds administered by the Judiciary.

In accordance with Section 93-16, Hawai‘i Revised Statutes, we are also transmitting a copy of this report to the Legislative Reference Bureau Library.

The public may view electronic copies of this report on the Judiciary's website at the following link: [http://www.courts.state.hi.us/news and reports/reports/reports.html](http://www.courts.state.hi.us/news and reports/reports/reports.html).

Should you have any questions regarding this report, please feel free to contact Karen Takahashi of the Judiciary's Legislative Coordinating Office at 539-4896, or via e-mail at Karen.T.Takahashi@courts.hawaii.gov.

Sincerely,

Rodney A. Maile
Administrative Director of the Courts

Enclosure

   Office of the Clerk, Hawai‘i House of Representatives
ANNUAL REPORT TO THE THIRTIETH LEGISLATURE
2019 REGULAR SESSION

ON

ACT 40, SESSION LAWS OF HAWAI‘I 2004
HRS § 601-21

A Report on Statewide Substance Abuse Treatment
Monitoring Program

Prepared by:

Adult Client Services Branch, First Circuit
The Judiciary, State of Hawai‘i

December 2018
HRS § 601-21 requires the Judiciary to: (a) collect data in accordance with HRS § 321-192.5 from any circuit court, adult probation, and any provider of substance abuse treatment that provides substance abuse treatment to persons served through public funds administered by the judiciary; and (b) include in the contract with any treatment provider all criteria established by the department of health pursuant to HRS § 321-192.5 to determine whether the treatment provider is achieving success in treating individuals with substance abuse.

The Judiciary’s efforts to comply with the above-referenced statute are outlined below.

- The Judiciary continues to include language in its Requests for Proposals and existing contracts with substance abuse treatment providers to hold programs accountable for complying with Department of Health (DOH) criteria to determine success in treating individuals with substance abuse.

- The Judiciary received available data taken from the Web Infrastructure for Treatment Services (WITS) information system. Reports from WITS are attached. It is noted that some of the Judiciary’s contracted providers were not ADAD providers, thus numbers were taken for these programs from Caseload Explorer (CE), the Judiciary statewide ACSB case and management information system for probation. These statistics must be considered preliminary as ACSB still needs to ensure that all program data is entered in a timely manner.

It is noted that the data provided by ADAD is based on information provided by treatment providers. Some of this information may not match with what is contained in CE as there may be inconsistency in the way data is entered and interpreted.

The Department of Health ADAD/WITS reported data in the tables shown on the following pages.

The following FY18 statewide probation data was also obtained from CE:

- 925 unduplicated adults entered 1,011 programs with 1,133 admits in FY 18. The higher number of admits reflect clients being admitted to treatment more than once during the year.

- 5,380 offenders were active in treatment during the same year
• Of the 5,380 offenders, 4,169 were males, 1,186 were females, and 25 were unspecified.

• Treatment services include assessments, education, motivational enhancement, outpatient, intensive outpatient, day and residential care, with continuing care following core treatment. Special needs, including those for pregnant and parenting women and individuals with co-occurring (mental health and substance abuse) disorders have been addressed by treatment programs.

• Through the efforts of the Interagency Council on Intermediate Sanctions (ICIS), programs have been evaluated using the Correctional Program Checklist (CPC) to determine how much in alignment programs are with the application of effective practices in working with offenders. Most programs are beginning to look at their programming and are working toward adopting and adapting to these principles.

• The CPC assessment team continues to be active in supporting the vendors as they begin to implement some of these practices, by providing opportunities for greater interaction between programs and the criminal justice system through training. Probation officers are consistently transmitting Level of Services Inventory-Revised data which provide vendors with the risk (to recidivate) classification of referred offenders to address dosage and treatment placement.

• Clients from Neighbor Islands had to travel to O'ahu or Maui for residential type placements, reflecting the need for higher levels of substance abuse treatment on all islands. There are no residential treatment programs on Hawai'i Island, Kaua'i, Lāna'i, and Moloka'i.

### Table 3.1 Number of Clients Admitted by Island, Agency and Race

This report counts clients who have had one or more program enrollments during the fiscal year. If a client has multiple program enrollments during the fiscal year, they are counted only once.

Table 6.2 Number of Clients Served by Island, Agency, and Level of Care

This report counts the number of clients whose service was paid by the Judiciary in the fiscal year. If a client has multiple Judiciary paid services, the client is counted only once. Services can be for program enrollments in prior years.
