HB 813 – RELATING TO THE UNIVERSITY OF HAWAII PROMISE PROGRAM PLUS

Chair Woodson, Vice Chairs Hashem and Perruso, and members of the committee:

Thank you for the opportunity to provide testimony in support of HB 813, which establishes the University of Hawai‘i Promise Program Plus.

This program would provide scholarships for the unmet direct cost of qualified students at any four-year University of Hawai‘i campus who had previously received a Hawai‘i Promise scholarship while enrolled at one of the University of Hawai‘i community colleges. The Hawai‘i Promise program provides financial assistance to students with financial need (as determined based on their Free Application for Federal Student Aid) to meet the cost of tuition, fees, books and transportation. It would be awarded only to students to meet need remaining after federal and other need-based aid is awarded.

Expanding the Hawai‘i Promise program to qualified students in 4-year degree programs at the University of Hawai‘i is the highest priority in the Board of Regent’s budget request for the university this year. Expanding this program will significantly enhance the ability of community college students to transfer to a 4-year program and it will increase the number of economically disadvantaged students who can earn a bachelor’s degree from the university. It will be a significant step forward in expanding access to economic opportunity for Hawai‘i’s students and preparing the educated workforce the state will need to grow in the coming decades.

The program is effective for students in the community colleges, where participation in Hawai‘i Promise has led to increase student success in their programs. Many of these successful students soon will be ready to transfer to a 4-year UH degree program. A 4-year version of Hawai‘i Promise will help these students afford the continuation of their education.

The university is concerned, however, that students who did not qualify for Hawai‘i Promise at the community college might nevertheless have unmet need when they attend a 4-year program. It would be unfortunate to exclude these students with unmet need from the benefits of this program.

Thank you for the opportunity to testify on this measure.
**Date:** 02/01/2019  
**Time:** 02:00 PM  
**Location:** 309  
**Committee:** House Lower & Higher Education  

**Department:** Education  
**Person Testifying:** Dr. Christina M. Kishimoto, Superintendent of Education  
**Title of Bill:** HB 0813 RELATING TO THE UNIVERSITY OF HAWAII PROMISE PROGRAM PLUS.  
**Purpose of Bill:** Establishes the University of Hawaii Promise Program Plus to provide scholarships for the unmet direct cost needs of qualified students enrolled in a bachelor’s degree at the University of Hawaii who are (1) graduates of a University of Hawaii community college who received a Hawaii community college promise program scholarship; and (2) enrolled at any University of Hawaii campus. Appropriates funds to establish and implement the program.  

**Department's Position:**  
The Department of Education (Department) supports the intent of HB 0813, provided that its passage does not replace or adversely impact priorities indicated in the Board of Education approved budget. The Department supports opportunities for all public school graduates to have affordable access to quality higher education opportunities at any University of Hawaii campus.  

Thank you for the opportunity to testify on HB 0813.  

The Hawaii State Department of Education seeks to advance the goals of the Strategic Plan which is focused on student success, staff success, and successful systems of support. This is achieved through targeted work around three impact strategies: school design, student voice, and teacher collaboration. Detailed information is available at [www.hawaiipublicschools.org](http://www.hawaiipublicschools.org).
HB 813 RELATING TO THE UNIVERSITY OF HAWAII PROMISE PROGRAM PLUS
HB 1277 RELATING TO THE UNIVERSITY OF HAWAII PROMISE PROGRAM

Chair Woodson, Vice Chair Hashem, Vice Chair Perruso and members of the
commitee:

Thank you for the opportunity to submit testimony on HB 13 and HB 1277 which
provide “last dollar” scholarships for the unmet need of qualified students at any
campus of the University of Hawaii’s system who meet certain criteria.

I strongly support the expansion of the Promise Program. As a UH Alum and president
of the Engineering Alumni Association of the University of Hawaii, I am proud of the
education I received at the University of Hawaii and recognize the critical role UH plays
in educating our citizenry for Hawaii’s multi-faceted workforce.

When I went to the University of Hawaii from 1988-1991, my average tuition was about
$1,000 per year. Back then I think a loaf of bread was about $1.30. Compared to
today’s cost of $3.50 that’s about a 3 fold rise in prices. However the cost to go to the
University of Hawaii has risen by about 12 fold which has made it unaffordable to many
local students.

Since the Promise Program’s inception, the UH Community Colleges were able to assist
1,500 students through this program. These students and their families are now facing a
more stable and prosperous future thanks to the direct support our state leaders
provided to this innovative program.

By expanding the University of Hawaii Promise Program we can remove cost as a
barrier to higher education for UH students statewide facing prohibitive financial
challenges. This will ensure that promising, ambitious students have the resources they
need to focus on their studies, prepare to join our workforce and make positive
contributions to our state.

*Their future success impacts us all.*

By expanding the University of Hawaii Promise Program we can help our state’s
educational leaders meet the goal of having 55% of working-age adults hold a two- or
four-year degree by the year 2025. Achieving this goal is critical to Hawaii’s future
economic health, and our community’s wellbeing.
More Hawai‘i residents with college degrees are needed to fill workforce demands of the future.

With your support, we can ensure our state has the qualified workforce and expertise we need for balanced economic and social well-being. Thank you for the opportunity to submit testimony on this measure.
Testimony Presented Before the
COMMITTEE ON LOWER & HIGHER EDUCATION

Helen M. Hasegawa, Ph.D., President
University of Hawaii at Manoa, College of Education Alumni Association

HB 813 RELATING TO THE UNIVERSITY OF HAWAI’I PROMISE PROGRAM PLUS
HB 1277 RELATING TO THE UNIVERSITY OF HAWAI’I PROMISE PROGRAM

Chair Woodson, Vice Chair Hashem, Vice Chair Perruso and members of the committee:

Thank you for the opportunity to submit testimony on HB 13 and HB 1277 which provide “last dollar” scholarships for the unmet need of qualified students at any campus of the University of Hawai’i system who meet certain criteria.

I strongly support the expansion of the Promise Program. As a UH Alumna, I am proud of the education I received at the University of Hawai’i at Manoa and recognize the critical role UH plays in educating our citizenry for Hawai’i’s multi-faceted workforce.

Currently, I am the President of the UHM College of Education Alumni Association. The officers and directors of our Board and our membership are in full support of the expansion of the Hawaii Promise Program to the four-year campuses. At a time, when the Hawaii Department of Education is experiencing a shortage of teachers, the Promise Program will be instrumental in recruiting possible candidates into the University of Hawai’i at Manoa’s teacher preparation baccalaureate programs from the rural and disadvantaged areas of the state, especially those who demonstrate financial need. Research and studies have shown that communities that "grow their own" experience less attrition. To this end, if these potential candidates are provided with financial assistance so they can attain a baccalaureate degree and then pursue a career in teaching in their communities, it would be a "win-win" situation for the state, especially when Hawaii is experiencing a shortage of qualified teachers.

Since the Promise Program’s inception, the UH Community Colleges were able to assist 1,500 students through this program. These students and their families are now facing a more stable and prosperous future thanks to the direct support our state leaders provided to this innovative program.

By expanding the University of Hawai’i Promise Program we can remove cost as a barrier to higher education for UH students statewide facing prohibitive financial challenges. This will ensure that promising, ambitious students have the resources they need to focus on their studies, prepare to join our workforce, especially teaching, and make positive contributions to our state. Their future success impacts us all.
By expanding the University of Hawai‘i Promise Program we can help our state’s educational leaders meet the goal of having 55% of working-age adults hold a two- or four-year degree by the year 2025. Achieving this goal is critical to Hawai‘i’s future economic health, and our community’s wellbeing.

More Hawai‘i residents with college degrees are needed to fill workforce demands of the future. And these include those residents who are seeking a baccalaureate degree in teacher education.

With your support, we can ensure our state has the qualified workforce and expertise we need for balanced economic and social well-being. Thank you for the opportunity to submit testimony on this measure.
