A BILL FOR AN ACT

RELATING TO HEALTH CARE.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

SECTION 1. The legislature finds that Hawaii has long been a leader in advancing reproductive rights, advocating the importance of access to reproductive health care without discrimination, and implementing forward thinking reproductive health care policy. However, gaps in coverage and care still exist, and Hawaii benefits and protections are constantly under attack by a hostile federal administration bent on repealing or undercutting the federal Patient Protection and Affordable Care Act and, in particular, access to sexual and reproductive health care benefits and protections.

The legislature finds that access to reproductive health care is critical for the health and economic security of all of Hawaii's people. Research shows that for every one dollar in public spending on reproductive health and family planning services, states save seven dollars in medicaid costs for pregnancy, labor and delivery, and children's health care.

Ensuring that Hawaii's people receive comprehensive sexual and
reproductive health care makes good economic sense and improves
the overall health of our communities and our State.

The legislature concludes that in order to safeguard access
to abortion, to solidify the essential health benefits that have
changed thousands of lives, and to improve overall access to
care, it is vital to preserve certain important aspects of the
Patient Protection and Affordable Care Act and expand access to
care for residents of Hawaii.

Accordingly, the purpose of this Act is to ensure
comprehensive coverage for the full spectrum of sexual and
reproductive health care services, including family planning,
abortion, and postpartum care, for all of Hawaii's people.

PART I

SECTION 2. Chapter 431, Hawaii Revised Statutes, is
amended by adding two new sections to part I of article 10A to
be appropriately designated and to read as follows:

"§431:10A-A Preventive care; coverage; requirements. (a)
Every individual policy of accident and health or sickness
insurance issued or renewed in this State shall provide coverage
for all of the following services, drugs, devices, products, and
procedures for the policyholder or any dependent of the policyholder who is covered by the policy:

(1) Well-woman preventive care visit annually for women to obtain the recommended preventive services that are age and developmentally appropriate, including preconception care and services necessary for prenatal care. A well-woman visit, where appropriate, shall include other preventive services as listed in this section; provided that if several visits are needed to obtain all necessary recommended preventive services, depending upon a woman's health status, health needs, and other risk factors, coverage shall apply to each of the necessary visits;

(2) Counseling for sexually transmitted infections, including human immunodeficiency virus and acquired immune deficiency syndrome;

(3) Screening for: chlamydia; gonorrhea; hepatitis B; hepatitis C; human immunodeficiency virus and acquired immune deficiency syndrome; human papillomavirus; syphilis; anemia; urinary tract infection; pregnancy;

(b) An insurer shall not impose any cost-sharing requirements, including copayments, coinsurance, or deductibles, on a policyholder or an individual covered by the policy with respect to the coverage and benefits required by this section, except to the extent that coverage of particular services without cost-sharing would disqualify a high-deductible health plan from eligibility for a health savings account pursuant to 26 United States Code section 223. For a qualifying high-deductible health plan, the insurer shall establish the plan's cost-sharing for the coverage provided pursuant to this section at the minimum level necessary to preserve the insured's ability to claim tax-exempt contributions and withdrawals from the insured's health savings account under 26 United States Code section 223.

(1) There is no in-network provider to furnish the service, drug, device, product, or procedure that meets the requirements for network adequacy under section 431:26-103; or
(2) An in-network provider is unable or unwilling to provide the service, drug, device, product, or procedure in a timely manner.
(g) Every insurer shall provide written notice to its policyholders regarding the coverage required by this section. The notice shall be in writing and prominently positioned in any literature or correspondence sent to policyholders and shall be transmitted to policyholders beginning with calendar year 2020 when annual information is made available to policyholders or in any other mailing to policyholders, but in no case later than December 31, 2020.

(h) This section shall not apply to policies that provide coverage for specified diseases or other limited benefit health insurance coverage, as provided pursuant to section 431:10A-102.5.

(i) If the commissioner concludes that enforcement of this section may adversely affect the allocation of federal funds to the State, the commissioner may grant an exemption to the requirements, but only to the minimum extent necessary to ensure the continued receipt of federal funds.

(j) For purposes of this section, "contraceptive supplies" shall have the same meaning as in section 431:10A-116.6.

§431:10A-B Nondiscrimination; reproductive health care; coverage. (a) An individual, on the basis of actual or
perceived race, color, national origin, sex, gender identity, sexual orientation, age, or disability, shall not be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination in the coverage of, or payment for, the services, drugs, devices, products, and procedures covered by section 431:10A-A or 431:10A-116.6.

(b) Violation of this section shall be considered a violation pursuant to chapter 481.
