A BILL FOR AN ACT

RELATING TO REAL PROPERTY TRANSACTIONS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

SECTION 1. The legislature recognizes that climate change is real and a priority issue for the State. It poses immediate and long-term threats to Hawaii's economy, sustainability, security, and way of life. Sea level rise is an especially pressing consequence of climate change, with sea levels projected to rise up to 3.2 feet in some areas by as early as 2060.

The legislature finds that a property's vulnerability to sea level rise, as identified by county climate maps, is a material fact for the purposes of mandatory disclosures in residential property sales. Chapter 508D, Hawaii Revised Statutes, requires that all residential property sales include a written disclosure statement prepared by or for the seller that fully and accurately discloses all material facts about the property. A "material fact" is defined in the chapter as "any fact, defect, or condition, past or present, that would be expected to measurably affect the value to a reasonable person.
of the residential real property being offered for sale." Sea
level rise, or an ongoing vulnerability to it, can be expected
to measurably affect the value of residential real property.
Accordingly, the purpose of this Act is to require that
mandatory seller disclosures in residential real property
transactions identify property within the sea level rise
exposure area as officially designated by the Hawaii climate
change mitigation and adaptation commission or its successor.
SECTION 2. Section 508D-15, Hawaii Revised Statutes, is
amended by amending subsection (a) to read as follows:
"(a) When residential real property lies:
(1) Within the boundaries of a special flood hazard area
as officially designated on Flood Insurance
Administration maps promulgated by the United States
Department of Housing and Urban Development for the
purposes of determining eligibility for emergency
flood insurance programs;
(2) Within the boundaries of the noise exposure area shown
on maps prepared by the department of transportation
in accordance with Federal Aviation Regulation part
150, Airport Noise Compatibility Planning (14 C.F.R. part 150), for any public airport;

(3) Within the boundaries of the Air Installation Compatible Use Zone of any Air Force, Army, Navy, or Marine Corps airport as officially designated by military authorities; 

(4) Within the anticipated inundation areas designated on the department of defense's emergency management tsunami inundation maps; or

(5) Within the sea level rise exposure area as officially designated by the Hawaii climate change mitigation and adaptation commission or its successor, subject to the availability of maps that designate the five areas by tax map key (zone, section, parcel), the seller shall include the material fact information in the disclosure statement provided to the buyer subject to this chapter. Each county shall provide maps of its jurisdiction detailing the five designated areas specified in this subsection. The maps shall identify the properties situated within the five designated areas by tax map key number (zone, section, parcel) and shall be of a
size sufficient to provide information necessary to serve the
purposes of this section. Each county shall provide legible
copies of the maps and may charge a reasonable copying fee.

Until these maps are made available, State-produced and adopted
SLR-XA maps shall be accepted."

SECTION 3. Statutory material to be repealed is bracketed
and stricken. New statutory material is underscored.

SECTION 4. This Act shall take effect on December 31,
2050.
Report Title:
Real Estate Transactions; Mandatory Seller Disclosures; Sea Level Rise Exposure Area

Description:
Requires that mandatory seller disclosures in real estate transactions include identification of residential real properties lying within the sea level rise exposure area as designated by the Hawaii climate change mitigation and adaptation commission or its successor. Effective 12/31/2050. (HD1)
