
A BILL FOR AN ACT

RELATING TO AGRICULTURE.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that, as the demand for
2 unskilled labor increases, farmers and ranchers are searching
3 for ways to use technology to better operate their farms. These
4 farmers and ranchers could greatly benefit from foreign
5 technology like small equipment tractors from Japan. However,
6 they are unable to import that equipment because it does not
7 comply with the Environmental Protection Agency's emission
8 standards.

9 The purpose of this Act is to appropriate funds to the
10 college of tropical agriculture and human resources, to work in
11 collaboration with a University of Hawaii system community
12 college, for a pilot program to identify and purchase foreign
13 agricultural technology, including small equipment tractors and
14 retrofit engines, which will benefit the State's farmers and
15 ranchers and that complies with the Environmental Protection
16 Agency's emission standards.

1 SECTION 2. There is appropriated out of the general
2 revenues of the State of Hawaii the sum of \$100,000 or so much
3 thereof as may be necessary for fiscal year 2020-2021 to
4 establish the foreign agriculture small equipment pilot program
5 to:

- 6 (a) Identify and purchase foreign agricultural technology,
7 including but not limited to small equipment tractors
8 and retrofit engines, which will benefit the State's
9 farmers and ranchers and comply with the Environmental
10 Protection Agency's emission standards;
- 11 (b) Establish contact with manufacturers of small
12 equipment in Japan and other countries;
- 13 (c) Work with the United States Environmental Protection
14 Agency to identify federal Environmental Protection
15 Agency standard and compliance requirements for small
16 foreign agricultural equipment;
- 17 (d) Collaborate with agriculture and agricultural
18 professionals from foreign countries on management
19 practices;

1 (e) Bring harvesting, weed management, and field
2 preparation machinery into the State of Hawaii for
3 evaluation;

4 (f) Conduct on-farm trials to evaluate the efficacy and
5 applicability to multiple growing systems (e.g.
6 wetland conventional, organic, forage crops, etc.)
7 statewide; and

8 (g) Conduct education and training workshops statewide to
9 update agriculture producers on available technology.

10 The sum appropriated shall be expended by the University of
11 Hawaii for the purposes of this Act.

12 SECTION 3. The dean of the University of Hawaii college of
13 tropical agriculture and human resources shall submit a report
14 of its findings and recommendations, including any proposed
15 legislation, to the legislature no later than twenty days prior
16 to the convening of the regular session of 2021 on the progress
17 of the foreign agriculture small equipment pilot program.

18 SECTION 4. This Act shall take effect on July 1, 2020.

Report Title:

HDOA; Small Agricultural Equipment; Pilot Program; Appropriation

Description:

Appropriates funds to the Department of Agriculture to establish a foreign agriculture small equipment pilot program. Requires a report to the Legislature. Effective 7/1/2020. (SD1)
