PART II

SECTION 2. The legislature finds that a "ghost gun" is a firearm that is assembled without serial numbers or other identification markings. A person may assemble a ghost gun from a prepackaged kit requiring only minimal expertise and, thus, bypass background checks, registration, and other legal requirements. The legislature also finds that the State's lack of laws addressing ghost guns allows persons who would normally be prohibited under state law from owning or possessing firearms to do so. The ease with which ghost guns may be obtained
defeats the intent of the State's otherwise strict firearm permitting and registration laws. It is these laws that have helped Hawaii to achieve the lowest gun violence death rate in the nation.

Accordingly, the purpose of this part is to:

(1) Prohibit the manufacture, purchase, or obtaining of firearm parts for the purpose of assembling a firearm having no serial number; and

(2) Amend certain requirements relating to firearms registration.

SECTION 3. Chapter 134, Hawaii Revised Statutes, is amended by adding a new section to part I to be appropriately designated and to read as follows:

"§134- Manufacturing, purchasing, or obtaining firearm parts to assemble a firearm having no serial number; penalty. (a) A person who is not licensed to manufacture a firearm under section 134-31, or who is not a dealer licensed by the United States Department of Justice, shall not, for the purpose of assembling a firearm, purchase, produce with a three-dimensional printer, or otherwise obtain separately, or as part of a kit:
(1) A firearm receiver that is not imprinted with a serial number registered with a federally licensed manufacturer;

(2) A firearm receiver that has not been provided a serial number that may be registered in accordance with section 134-3(c); or

(3) Any combination of parts from which a firearm having no serial number may be readily assembled; provided that the parts do not have the capacity to function as a firearm unless assembled.

(b) Violation of this section is a class C felony."

SECTION 4. Section 134-1, Hawaii Revised Statutes, is amended by adding three new definitions to be appropriately inserted and to read as follows:

"Assembly" means the fabrication of a firearm or the fitting together of component parts to construct a firearm.

"Firearm receiver" means the part of a firearm that provides housing for the firearm's internal components, such as a hammer, bolt, breechblock, action, or firing mechanism.

"Firearm receiver" includes any object or part that is not a firearm frame or receiver in finished form but that is designed
or intended to be used for that purpose and may readily be made
into a firearm frame or receiver through milling or other means.

"Ghost gun" means a firearm that is assembled without a
serial number or other identification marking."

SECTION 5. Section 134-3, Hawaii Revised Statutes, is
amended by amending subsections (a) through (d) to read as
follows:

"(a) Every resident or person arriving in the State who
brings or by any other manner causes to be brought into the
State a firearm of any description, whether usable or unusable,
serviceable or unserviceable, modern or antique, shall register
the firearm within five days after arrival of the person or of
the firearm, whichever arrives later, with the chief of police
of the county of the person's place of business or, if there is
no place of business, the person's residence or, if there is
neither a place of business nor residence, the person's place of
sojourn. A nonresident alien may bring firearms not otherwise
prohibited by law into the State for a continuous period not to
exceed ninety days; provided that the person meets the
registration requirement of this section and the person
possesses:
(1) A valid Hawaii hunting license procured under chapter 183D, part II, or a commercial or private shooting preserve permit issued pursuant to section 183D-34;

(2) A written document indicating the person has been invited to the State to shoot on private land; or

(3) Written notification from a firing range or target shooting business indicating that the person will actually engage in target shooting.

The nonresident alien shall be limited to a nontransferable registration of not more than ten firearms for the purpose of the above activities.

Every person registering a firearm under this subsection shall be fingerprinted and photographed by the police department of the county of registration; provided that this requirement shall be waived where fingerprints and photographs are already on file with the police department. The police department shall perform an inquiry on the person by using the International Justice and Public Safety Network, including the United States Immigration and Customs Enforcement query, the National Crime Information Center, and the National Instant Criminal Background Check System, pursuant to section 846-2.7 before any
Any person attempting to register a firearm, a firearm receiver, or the parts used to assemble a firearm, and who is found to be disqualified from ownership, possession, or control of firearms or ammunition under section 134-7, shall surrender or dispose of all firearms and ammunition pursuant to section 134-7.3.

(b) Every person who acquires a firearm pursuant to section 134-2 shall register the firearm in the manner prescribed by this section within five days of acquisition. The registration of all firearms shall be on forms prescribed by the attorney general, which shall be uniform throughout the State, and shall include the following information: name of the manufacturer and importer; model; type of action; caliber or gauge; serial number; and source from which receipt was obtained, including the name and address of the prior registrant. If the firearm has been assembled from separate parts and an unfinished firearm receiver, the entity that registered the firearm receiver shall be recorded in the space provided for the name of the manufacturer and importer, and the phrase "assembled from parts" shall be recorded in the space provided for model. If the firearm has been assembled from
parts created using a three-dimensional printer, the entity that
registered the firearm receiver shall be recorded in the space
provided for the name of the manufacturer and importer, and the
phrase "3-D printer" shall be recorded in the space provided for
model. If the firearm has no serial number, the [permit]
registration number shall be entered in the space provided for
the serial number, and the [permit] registration number shall be
engraved upon the receiver portion of the firearm before
registration. On firearms assembled from parts created using a
three-dimensional printer, the serial number shall be engraved
on stainless steel and permanently embedded to the firearm
receiver during fabrication or construction. All registration
data that would identify the individual registering the firearm
by name or address shall be confidential and shall not be
disclosed to anyone, except as may be required:

(1) For processing the registration;
(2) For database management by the Hawaii criminal justice
data center;
(3) By a law enforcement agency for the lawful performance
of its duties; or
(4) By order of a court.
(c) Dealers licensed under section 134-31 or dealers licensed by the United States Department of Justice shall register firearms pursuant to this section on registration forms prescribed by the attorney general and shall not be required to have the firearms physically inspected by the chief of police at the time of registration. An authorized dealer, as provided in section 134-31, or a dealer licensed by the United States Department of Justice, who brings, assembles, or causes to be brought into the State by any other means, separate parts and an unfinished firearm receiver that when assembled create a firearm, or parts created by a three-dimensional printer which when assembled create a firearm, shall register the unfinished firearm receiver and receive a serial number before the assembly of the firearm or the sale or transfer of unassembled firearm parts or a receiver to a third party, in accordance with subsection (b). Any sale or transfer of unfinished firearm receivers by an authorized dealer to a third party shall be conducted as if they were fully assembled firearms with a serial number engraved on the firearm receiver and in accordance with the firearms permitting process in section 134-2. All other firearms and firearm receivers registered under this section
shall be physically inspected by the respective county chief of
police or the chief's representative at the time of
registration.

(d) Registration shall not be required for:

(1) Any device that is designed to fire loose black powder
or that is a firearm manufactured before 1899;

(2) Any device not designed to fire or made incapable of
being readily restored to a firing condition; or

(3) All unserviceable firearms and destructive devices
registered with the Bureau of Alcohol, Tobacco, [and]
Firearms, and Explosives of the United States
Department of Justice pursuant to Title 27, Code of
Federal Regulations."

matured, penalties that were incurred, and proceedings that were
begun before its effective date.

SECTION 7. If any provision of this Act, or the
application thereof to any person or circumstance, is held
invalid, the invalidity does not affect other provisions or
applications of the Act that can be given effect without the
invalid provision or application, and to this end the provisions
of this Act are severable.
