A BILL FOR AN ACT

RELATING TO THE REDUCED IGNITION PROPENSITY CIGARETTE PROGRAM.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

SECTION 1. The legislature finds that in 2008, Hawaii enacted the reduced ignition propensity cigarette program and tasked the state fire council with its implementation. As stated in section 132C-1, Hawaii Revised Statutes, "[i]t is the intent of this chapter to require that only reduced ignition propensity cigarettes be sold in the State."

The legislature further finds that while the law allows moneys in the reduced ignition propensity cigarette program special fund to be expended for a full-time administrator and a full-time assistant, the job classification for the current employee is for a part-time program specialist. The statute also does not allow reduced ignition propensity cigarette program employees to be exempt from chapters 76 and 89, Hawaii Revised Statutes, which is contrary to the provisions of section 132-18, Hawaii Revised Statutes, for other state fire council staff.
The purpose of this Act is to provide the state fire council with greater flexibility in job classifications and hiring of reduced ignition propensity cigarette program employees. Specifically, this Act authorizes the state fire council to employ for the reduced ignition propensity cigarette program:

(1) Additional staff as necessary;
(2) The administrator, the assistant, and other necessary staff without regard to chapters 76 and 89, Hawaii Revised Statutes; and
(3) The administrator, the assistant, and other necessary staff each on a part-time or full-time basis.

SECTION 2. Section 132C-9, Hawaii Revised Statutes, is amended by amending subsection (b) to read as follows:

"(b) Moneys in the reduced ignition propensity cigarette program special fund shall be administered and expended by the state fire council to defray the actual cost of activities and requirements of section 132C-4, including employing [one full-time] as needed an administrator [and one full-time], an assistant [whose duties], and other staff. The employment of the administrator, assistant, and other necessary staff may be
without regard to chapters 76 and 89 and on a full-time or part-
time basis. The duties of the administrator, assistant, and
other staff shall include:

(1) Adopting administrative rules for program
implementation, establishing compliance inspections,
and approving forms and enforcement procedures and
guidelines;

(2) Receiving certifications for approximately six hundred
different brands and styles of cigarettes from the
manufacturers;

(3) Compiling a list of the cigarette brands and styles
for which manufacturers have submitted certifications,
verifying tax stamp compliance with the department of
the attorney general, and posting the list of
certified brands and styles on a state website for
informational purposes only;

(4) Reviewing and approving, as needed, any alternative
test methods or fire standard compliance markings
submitted by the manufacturer; and
(5) If needed, submitting certified cigarettes to an accredited laboratory for testing to verify that performance standards have been met."

SECTION 3. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.

SECTION 4. This Act shall take effect upon its approval.

INTRODUCED BY:
