4 any other designated place of sale to the public, in compliance  
5 with the federal Food Safety Modernization Act, including strict  
6 adherence to proper temperatures and handling at every control  
7 point from source to designated place of sale.

8 (b) In order to ensure Hawaii's food security and food  
9 safety, the task force shall also develop specific  
10 recommendations to ensure that all foods and brands imported  
11 into Hawaii do not mislead or confuse the public through name,  
12 pictures, artwork, or statements in packaging or by advertising  
13 that imply the imported food's origin is from Hawaii or has the  
14 same freshness or qualities as food that is locally grown or  
15 produced.

16 (c) In order to ensure a broad level of support and high  
17 level of necessary expertise, the task force members shall  
18 consist of:

20 president of the senate;

10          owned businesses that are directly involved in food  
11          distribution and are already operating in compliance

13          shall be invited by the task force members identified  
14          in paragraphs (1) to (3).
