# SENATE CONCURRENT RESOLUTION

REQUESTING THE LEGISLATIVE REFERENCE BUREAU TO COMPILE AND  
SYNTHESIZE RESEARCH STUDIES EXAMINING ALL POTENTIAL HEALTH  
IMPACTS OF RADIO FREQUENCY RADIATION, INCLUDING FIFTH-  
GENERATION CELLULAR NETWORKS.

1           WHEREAS, research from a 2018 National Toxicology Program  
2 study suggests that radio frequency radiation from second- and  
3 third-generation cellular networks, also known as 2G and 3G  
4 respectively, may correlate with health issues, including but  
5 not limited to heart tumors, brain tumors, and adrenal gland  
6 tumors in rats; and  
7

8           WHEREAS, while the National Toxicology Program is working  
9 to better understand the biological basis for the cancer  
10 findings in the 2018 study, it has not initiated a new study to  
11 study the effects of radio frequency radiation from fourth- and  
12 fifth-generation cellular networks, known as 4G and 5G  
13 respectively; and  
14

15           WHEREAS, in November 2020, the state of New Hampshire  
16 commissioned and presented a report compiling data related to  
17 health risks and radio frequency radiation, including but not  
18 limited to medical risks as well as public health risks  
19 associated with all radio frequency radiation, including 5G; and  
20

21           WHEREAS, a similar report in Hawaii would inform the  
22 Legislature on any public health risks associated with radio  
23 frequency radiation, and specifically with 5G networks; now,  
24 therefore,  
25

26           BE IT RESOLVED by the Senate of the Thirty-first  
27 Legislature of the State of Hawaii, Regular Session of 2021, the  
28 House of Representatives concurring, that the Legislative  
29 Reference Bureau is requested to compile and synthesize research

# S.C.R. NO. 256

1 studies examining all potential health impacts of radio  
2 frequency radiation, including 5G; and

3

4 BE IT FURTHER RESOLVED that the Legislative Reference  
5 Bureau is requested to submit its findings and recommendations,  
6 including any proposed legislation, to the Legislature no later  
7 than twenty days prior to the convening of the Regular Session  
8 of 2022; and

9

10 BE IT FURTHER RESOLVED that the United States Department of  
11 Health and Human Services is urged to commission a new study  
12 from the National Toxicology Program on the health impacts of  
13 radio frequency radiation, including 5G; and

14

15 BE IT FURTHER RESOLVED that certified copies of this  
16 Concurrent Resolution be transmitted to the Secretary of the  
17 United States Department of Health and Human Services, Director  
18 of the National Toxicology Program, and Director of the  
19 Legislative Reference Bureau.
