# A BILL FOR AN ACT

RELATING TO DUAL CREDIT PROGRAMS.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1           SECTION 1. The Georgetown University Center on Education  
2 and the Workforce has projected that, by 2020, seventy per cent  
3 of jobs in Hawaii will require that employees have some level of  
4 postsecondary education. However, according to the United  
5 States Census Bureau, currently, just forty-two per cent of  
6 Hawaii's adults hold a two- or four-year college degree.  
7 Several national and local studies have shown the effectiveness  
8 of dual credit programs (programs in which students earn both  
9 high school and college credit simultaneously) on students'  
10 rates of going to college, staying in college, and graduating  
11 from college with a postsecondary degree or certificate.

12           A study recently conducted by Hawaii P-20 partnerships for  
13 education on current dual credit programs, such as running  
14 start, show similar gains for students taking college-level  
15 courses while still in high school despite the high financial  
16 cost to students and their families. Nationally, of the forty-  
17 seven states (and the District of Columbia) that have statewide

1 policies governing at least one dual credit program, Hawaii is  
2 one of only nine states that requires the student and the  
3 student's parent or guardian to pay for participation in a dual  
4 credit program.

5       Increasing numbers of students in Hawaii are taking dual  
6 credit courses through programs that include, but are not  
7 limited to, the running start, jump start, or early college high  
8 school programs. However, for more students to gain more  
9 credits and the opportunity to earn both a college associate's  
10 degree and a high school diploma, they need to be able to start  
11 in ninth grade, if they are academically prepared. In more than  
12 twenty-eight other states, college-ready high school students  
13 can begin taking dual credit courses in the ninth grade.

14       Finally, there is a growing trend for assessing students'  
15 ability for college-readiness, not by a single standardized  
16 test, but by multiple measurements, such as grades, overall  
17 grade point average, teacher recommendations, and various  
18 assessments and tests.

19       The purposes of this Act are to: broaden current law to  
20 include all dual credit programs; broaden eligibility to  
21 participate in the program; allow for multiple measures of

1 assessment to determine eligibility; and appropriate funds for  
2 the instruction, courses, and administration of college credits,  
3 thus allowing broader participation by various types of  
4 students.

5 SECTION 2. Section 302A-401, Hawaii Revised Statutes, is  
6 amended to read as follows:

7 "§302A-401 [~~Running start~~] Dual credit program. (a).

8 There is created in the department the [~~running start~~] dual
