
A BILL FOR AN ACT

RELATING TO THE ENVIRONMENT.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that Hawaii's government
2 should operate as efficiently as possible to make the best use
3 of government resources, personnel, and taxpayer dollars as it
4 works to achieve the policy goals enacted by the legislature on
5 behalf of the people of Hawaii. However, natural resource and
6 environmental management is split among many departments and
7 agencies, often leading to inefficiencies. For example, the use
8 and protection of water resources is scattered among the
9 environmental health administration and the clean water branch
10 of the department of health, the division of aquatic resources,
11 the commission on water resource management, the office of
12 conservation and coastal lands, the division of boating and
13 ocean recreation of the department of land and natural
14 resources, and the coastal zone management program of the office
15 of planning of the department of business, economic development
16 and tourism, to name a few.

17 The legislature also finds that several departments also
18 suffer from internal conflicts of interest, including the

1 department of land and natural resources, which is tasked to
2 preserve Hawaii's public lands as well as make them available
3 for other purposes.

4 The legislature further finds that because the scope and
5 mission of some departments is so broad, directors must
6 prioritize their requests for resources. Inevitably, some
7 programs and services outside a department's core mission are
8 left behind. These programs and services may be a better fit in
9 another department where they take a higher priority.

10 In addition, modern critical issues such as climate change
11 necessitate that action and responsibility be spread among
12 several departments. It is sometimes unclear which departments
13 will take the lead and which will be responsible for using their
14 limited resources to tackle these challenges.

15 The legislature finds that in 1984, the legislature adopted
16 Senate Concurrent Resolution No. 135 and House Concurrent
17 Resolution No. 78, requesting the legislative reference bureau
18 to conduct a study of establishing a state environmental
19 protection agency, department, or comparable body to coordinate
20 and address matters of environmental quality. In 1985, the
21 legislative reference bureau released a study "The Feasibility

1 of Environmental Reorganization for Hawaii", which, in part,
2 discussed the creation of a state department of environmental
3 protection.

4 The legislature further finds that Act 293, Session Laws of
5 Hawaii 1991, temporarily placed a department of environmental
6 protection in the Hawaii Revised Statutes; however the Act also
7 provided for its repeal on July 1, 1992, if the legislature
8 failed to enact a bill establishing the powers, duties, and
9 other provisions of the department of environmental protection
10 during the regular session of 1992. The department of
11 environmental protection task force report, in response to Act
12 293, found that while there was consensus that a department of
13 environmental protection should be established, the task force
14 could not reach consensus on the strategy regarding the overall
15 establishment of the department. The legislature was not able
16 to enact a law establishing the powers, duties, and other
17 provisions of the department of environmental protection, and
18 thus, Act 293 was repealed.

19 The purpose of this Act is to require the legislative
20 reference bureau to update the 1985 study "The Feasibility of

1 Environmental Reorganization for Hawaii" and to assess the
2 feasibility of implementing findings and recommendations.

3 SECTION 2. (a) The legislative reference bureau shall
4 update its study "The Feasibility of Environmental
5 Reorganization for Hawaii" and assess the feasibility of
6 implementing the findings and recommendations of the department
7 of environmental protection task force.

8 (b) The legislative reference bureau may contract the
9 services of another entity to perform any related services that
10 may be required pursuant to this Act. Any contract for services
11 executed pursuant to this Act shall be exempt from chapter 103D,
12 Hawaii Revised Statutes.

13 (c) The legislative reference bureau shall submit the
14 updated study to the legislature no later than twenty days prior
15 to the convening of the regular session of 2016.

16 SECTION 3. There is appropriated out of the general
17 revenues of the State of Hawaii the sum of \$ or so
18 much thereof as may be necessary for fiscal year 2015-2016 for
19 the purposes of this Act.

20 The sum appropriated shall be expended by the legislative
21 reference bureau for the purposes of this Act.

1 SECTION 4. This Act shall take effect on July 1, 2015.

2

Report Title:

Environmental Reorganization; Update LRB Study; Appropriation

Description:

Requires LRB to update its 1985 study on environmental reorganization for Hawaii and assess the feasibility of implementing the findings and recommendations of the 1992 department of environmental protection task force. Makes an appropriation. (SD1)
