
SENATE CONCURRENT RESOLUTION

REQUESTING THE UNITED STATES ARMY CORPS OF ENGINEERS, STATE OF HAWAII, AND CITY AND COUNTY OF HONOLULU TO ESTABLISH A WORKING GROUP TO EXPLORE MATTERS RELATED TO THE ALA WAI WATERSHED.

1 WHEREAS, the Ala Wai Watershed, located in the City and
2 County of Honolulu, encompasses approximately nineteen square
3 miles, or 12,064 acres, and extends from the ridge of the Koolau
4 Mountains to the nearshore waters of Mamala Bay; and
5

6 WHEREAS, the Ala Wai Watershed is made up of Makiki, Manoa,
7 and Palolo Streams, which drain into the Ala Wai Canal, a two-
8 mile-long man-made waterway constructed during the 1920s, not
9 for major flood control, but rather to drain coastal wetlands
10 and allow for the development of Waikiki; and
11

12 WHEREAS, the Ala Wai Canal is owned and maintained by the
13 State, and the United States Army Corps of Engineers (USACE) has
14 coordinated with the State and City and County of Honolulu since
15 2001 to develop a plan to mitigate flooding in the Ala Wai
16 Watershed in the event of a major, once-in-a-century storm; and
17

18 WHEREAS, an October 2004 storm that flooded Manoa Valley
19 within the Ala Wai Watershed and was described as a twenty-five-
20 year event caused an estimated \$85,000,000 in damage; and
21

22 WHEREAS, the likelihood of flooding all of Waikiki and the
23 canal's tributaries is approximately one percent, considered a
24 one-hundred-year event, with potential estimated damage to three
25 thousand structures and requiring more than \$1,000,000,000 in
26 repairs; and
27

28 WHEREAS, the USACE is currently negotiating terms of an
29 agreement with the State and City and County of Honolulu to
30 proceed with the Ala Wai Canal Flood Risk Management Project,

1 which received approximately \$345,000,000 in federal
2 appropriations in July 2018; and

3
4 WHEREAS, the appropriation requires local matching funds in
5 the amount of \$125,000,000 and a local government sponsor in
6 order to proceed with the project; and

7
8 WHEREAS, structural elements of the USACE proposal includes
9 six debris/detention basins in the upper reaches of the
10 watershed's three major streams, one in-stream debris catchment
11 structure, three multi-purpose detention basins, and flood
12 control elements along the Ala Wai Canal including a three- to
13 five-foot tall wall; and

14
15 WHEREAS, elements of the USACE proposal would directly
16 affect properties in the watershed, impacting and in some cases
17 displacing individuals and organizations that own or operate on
18 such properties; and

19
20 WHEREAS, Oahu neighborhood boards were established by the
21 City and County of Honolulu to increase and assure effective
22 citizen participation in the decisions of government, and
23 several neighborhood boards with boundaries within the Ala Wai
24 Watershed and affected areas have expressed concerns over the
25 proposed project through meetings and adopted resolutions; and

26
27 WHEREAS, issues related to the project have been brought to
28 the forefront and have now become a major area of concern to
29 members of the public, community stakeholders, and other
30 interested parties; and

31
32 WHEREAS, while there have been opportunities for public
33 input and engagement in the past regarding the Ala Wai Canal
34 Flood Risk Management Project Draft Feasibility Study and
35 Environmental Impact Statement, this body finds that further
36 public engagement is warranted in order to consider those
37 concerns; now, therefore,

38
39 BE IT RESOLVED by the Senate of the Thirtieth Legislature
40 of the State of Hawaii, Regular Session of 2019, the House of
41 Representatives concurring, that the United States Army Corps of
42 Engineers, State of Hawaii, and City and County of Honolulu are

1 requested to establish a working group to explore matters
2 related to the Ala Wai Watershed and, in particular, the Ala Wai
3 Canal Flood Risk Management Project; and

4
5 BE IT FURTHER RESOLVED that the working group is requested
6 to:

7
8 (1) Facilitate public meetings to encourage dialogue among
9 members of the public, community stakeholders,
10 representatives from the State, City and County of
11 Honolulu, and United States Army Corps of Engineers,
12 and other interested parties;

13
14 (2) Record and compile concerns submitted to the working
15 group; and

16
17 (3) Develop and assess good design options to address
18 community concerns, including but not limited to
19 mitigating disruption to schools and institutions that
20 have cultural or historical significance, minimizing
21 adverse impacts on private property owners, and
22 implementing appropriate traditional land management
23 practices for ecosystem preservation and restoration
24 including strategies for floodable development in lieu
25 of hard structures and barriers; and

26
27 BE IT FURTHER RESOLVED that the working group is requested
28 to include the following:

29
30 (1) A representative of the Mayor of the City and County
31 of Honolulu's administration, who is requested to
32 serve as the chair of the working group;

33
34 (2) A representative or representatives of the USACE;

35
36 (3) A representative or representatives of the Governor's
37 administration;

38
39 (4) A member or members of the Hawaii State Senate;

40
41 (5) A member or members of the Hawaii State House of
42 Representatives;

- 1
- 2 (6) A member or members of the Honolulu City Council;
- 3
- 4 (7) Researchers from the University of Hawaii, including a
- 5 representative of the Community Design Center and
- 6 other experts knowledgeable in flood risk management
- 7 or watershed and ecosystem restoration;
- 8
- 9 (8) A representative or representatives of the School for
- 10 Examining Essential Questions of Sustainability; and
- 11
- 12 (9) Other persons as may be invited by the working group;
- 13 and
- 14

15 BE IT FURTHER RESOLVED that the working group is requested
16 to submit a report of its findings and recommendations,
17 including any other actions taken pursuant to this measure, to
18 the Legislature no later than twenty days prior to the convening
19 of the Regular Session of 2020; and

20

21 BE IT FURTHER RESOLVED that certified copies of this
22 Concurrent Resolution be transmitted to the Commander and
23 District Engineer of the United States Army Corps of Engineers
24 Honolulu District, Governor, President of the University of
25 Hawaii System, Mayor of the City and County of Honolulu,
26 Chairperson of the Honolulu City Council, Director of the
27 University of Hawaii Community Design Center, and Chair of the
28 Governing Board of the School for Examining Essential Questions
29 of Sustainability.
