A BILL FOR AN ACT

RELATING TO TOURISM.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that tourism is the
2 largest private sector industry in the State and that Hawaii is
3 known globally for stunning natural beauty, unique culture, and
4 the spirit of aloha. A successful tourism industry in Hawaii
5 depends on the health of natural and cultural resources,
6 communities, economy, and relationships with visitors.

7 The legislature further finds that an increase in the
8 State's local population and visitors has resulted in both
9 overuse of and degradation in the quality of the State's
10 precious natural resources. Pollution, erosion, and safety have
11 become increasingly problematic in our State's favorite parks,
12 trails, and waterways. The legislature finds that a potential
13 solution to these problems is proper resource management through
14 increased education and self-sustaining funding.

15 The legislature further finds that the tourism industry has
16 a role to play in protecting the State's natural resources,
17 perpetuating Hawaii's history, and preserving a high quality of

1 life for Hawaii's residents by supporting sustainable practices
2 that are designed to maintain and manage Hawaii's resources.

3 The legislature additionally finds that requiring
4 sustainable practices, including development and implementation
5 of a trail fee pilot program and requiring professional tour
6 guide certification from persons in the tourism industry, may
7 advance this goal while also enhancing visitor experiences and
8 protecting Hawaii's brand.

10 task force to develop plans and a schedule to implement a trail
11 fee pilot program and a commercial tour guide certification
12 program.
