PART II. GENERAL FUND REVENUES AND ECONOMY

The Council on Revenues forecasted significant net decreases in its general fund tax revenue projection for fiscal year 2023 at its January 2023 and March 2023 meetings.

The Council reduced the estimated growth in revenues from 6.5 percent to 5.5 percent in January 2023, and from 5.5 percent to 2.0 percent in March 2023. The revised forecasts mean a reduction in revenues by $334,000,000 in fiscal year 2023. The estimated reduction in revenues is primarily due to a one-time refund of either $100 or $300 per qualifying exemption for Hawaii residents, pursuant to article VII, section 6, of the Hawaii State Constitution.

The Council noted that lower capital gains income due to poor performance in the stock market and a cooling real estate market are likely causes of lower estimated tax payments. The Council also noted that inflation had dropped nationally and in Hawaii.

General excise tax and transient accommodation tax collections remain robust due to the recovery of tourist arrivals, renewed consumer spending, and additional tax collections due to inflation. Risks that may inhibit the economic recovery include new variants of the coronavirus disease 2019 (COVID-19) virus, inflation and an aggressive monetary policy response from the Federal Reserve, high oil and commodity prices, severe labor shortages, supply chain disruptions, sustained travel hesitancy from Asian markets due to the pandemic, and the reduction in federal stimulus spending.

Due to the recent strength of the United States dollar compared to foreign currencies, Hawaii also faces strong competition from international travel destinations, such as Europe. In particular, tourists from Japan may be less likely to travel to Hawaii due to the unfavorable foreign currency exchange rates between the yen and the United States dollar in comparison to the pre-pandemic exchange rate.
The new forecasts for the state general fund tax revenues for fiscal year 2023 through fiscal year 2029 are shown in the table below.

**PART III. COMMITTEE'S PRIORITIES**

Your Committee has worked diligently to create a responsible financial plan and budget that continues to fund critical services and programs. The Senate's approach to balancing the budget entails considering the Council on Revenues' general fund forecast and creating a fiscally responsible financial plan that will infuse unprecedented appropriations to implement priorities, including priorities identified by Governor Josh Green. These priorities will:

- Address homelessness and the housing crisis;
- Contribute more to the emergency and budget reserve fund (EBRF), or "rainy day fund";
- Increase access to early childhood education;
- Mitigate and adapt to climate change; and
- Increase health and wellness across the State.

Your Committee crafted a budget that intends to create a tipping point in addressing the housing crisis, cost of living, and climate change, while also improving health and wellness outcomes for Hawaii's residents. The Senate, in support of the
Green Administration's priorities, believes that it is putting forth a budget that will ensure that the people who call Hawaii home will not just survive, but thrive. With a general fund carry-over of $2,200,000,000, fiscal year 2024 appropriations include numerous one-time expenditures that target the most pressing needs of the State.

On the Opening Day of the current legislative session, Governor Green announced a $1,000,000,000 commitment to combat Hawaii's housing crisis. In the Senate budget, we provide further details that address the Governor's promise to the State. Your Committee has earmarked $1,000,000,000 for projects intended to meet a wide spectrum of economic need, including:

- Housing and transit-oriented development infrastructure (S.B. No. 1191);
- Teacher workforce housing (S.B. No. 941);
- Rent supplement assistance for middle income families;
- Dwelling unit revolving fund loans and infrastructure projects (this measure);
- Rental housing revolving fund moneys for low-income individuals and families (this measure); and
- Ohana Zones and Kauhale to support our most vulnerable and chronically homeless individuals (this measure).

$100,000,000 has been set aside for the fiscal biennium in both the operating and capital improvement program budgets for projects to mitigate and adapt to climate change. These include but are not limited to:

- Honokohau Small Boat Harbor, $14,000,000;
- Relocation of Kauai Community Correctional Center due to the widening of Kuhio Highway and the facility's current siting within a flood zone, $3,000,000;
- Carbon Smart Land Management Assistance Pilot Program, $1,000,000;
- Pohoiki Boat Ramp, $30,000,000; and
- Highway drainage improvements, statewide, $3,600,000.

The Green Affordability Plan intends to control the high cost of living here in Hawaii. To this end, the Senate is committing $354,000,000 in fiscal year 2024 and $338,000,000 in fiscal year 2025 in tax relief and exemptions, which include:

- Increasing the food/excise tax credit, which doubles the food and excise tax credit and increases the income threshold to $40,000 for single filers and $80,000 for married joint filers to help low-income taxpayers;

- Increasing the earned income tax credit (EITC) from twenty percent of the federal EITC to forty percent of the federal EITC. This will double the amount of the EITC for taxpayers for low-income households with children. The EITC is designed to help working families with incomes around or slightly above the federal poverty line;

- Increasing the child and dependent care tax credit amount of allowable childcare expenses from $2,400 to $10,000 for one child and from $4,800 to $20,000 for two or more children. The maximum refundable credit allowable will be $5,000 for one child and $10,000 for two or more children. This will help working parents;

- Individual income tax reform through cost-of-living adjustments. This annual adjustment to individual income tax brackets will benefit all taxpayers and ensure that lower-income taxpayers are not pushed into higher-income tax brackets when they receive cost-of-living adjustments to their wages;

- Individual income tax reform through increased standard deductions. This reform will increase the standard deduction from $2,200 to $5,000 for single filers and from $4,400 to $10,000 for filers who are married and filing jointly, to help low- to medium-income taxpayers; and
Individual income tax reform by doubling the personal exemption. This reform will increase the personal exemption from $1,144 to $2,288 and will help families with children.

Your Committee has set aside millions in general funds for new statutory mandates that provide mental and behavioral healthcare for individuals from keiki to kupuna, address the needs of those with developmental disabilities, and solve healthcare workforce shortages. Appropriations include:

- Adding $26,000,000 in general funds in both fiscal years for Department of Health service provider contract adjustments to account for inflation;
- Adding $22,000,000 in general funds in both fiscal years for Department of Human Services service provider contract adjustments to account for inflation;
- Adding $12,900,000 in general funds in fiscal year 2024 and $14,100,000 in general funds in fiscal year 2025 for Medicaid Home and Community-Based Services waivers for individuals with intellectual and developmental disabilities;
- Adding $10,000,000 in general funds in fiscal year 2024 and $20,000,000 in general funds in fiscal year 2025 for the Hawaii State Loan Repayment Program for Healthcare Professionals;
- Adding $7,000,000 for the Hawaii Keiki: Healthy and Ready to Learn initiative; and
- Adding $898,560 for after-school care for students with disabilities.
